Head Count Systems

Overview :

Head count software is used to know how many employees are there in your premises at any point of time.

It helps to take precautionary steps at the time of emergency. This software can also be used to know how much strength you have at particular time at particular location. There are other features like you can display greetings on the screen and news related to company.

Key Benefits :

- ✓ Can easily be integrated with our time attendance system
- ✓ No need to process data
- ✓ Online Data downloading
- ✓ Can generate Department wise reports directly
- ✓ Can easily track the employee inside the premises
